

Richard Feynman is known for the development of:

- (A) biotechnology
- (B) nanotechnology
- (C) X-ray
- (D) electron microscope

**Correct Answer:**

**(B) nanotechnology**

**Explanation:**

Richard Feynman, a renowned physicist, is widely regarded as one of the pioneers of **nanotechnology**. In his famous 1959 lecture titled *“There’s Plenty of Room at the Bottom”*, he discussed the possibility of manipulating individual atoms and molecules — a foundational idea that later evolved into the field of nanotechnology.
