Tripura is home to the first modified bio-village in the country.

Deputy Chief Minister Jishnu Dev Varma said on Saturday that Daspara village — a helmet of 64 families solely dependent on agriculture and fishery — converted to a nature-based lifestyle and livelihood and reduced the use of chemical fertilizer.

This is one of the five successful bio-village 2.0 conceptualised in Tripura after the BJP came to power and adopted the climate change mitigation endeavor

the success of Tripura has been recognized as one of the best practices to attain sustainable development goals
