

The erstwhile Cachar Paper Mill in Panchgram, is set to be transformed into a state-of-the-art Bamboo-to-Methanol (BTM) producing plant

The ambitious project, valued at Rs 2,000 crore, is expected to generate 18,900 jobs and will include a Multimodal Logistic Park (MMLP) spread across 212 bighas and an MSME Technology Centre covering 60 bighas.

The BTM plant, akin to the forthcoming semiconductor facility in Jagiroad, aims to rejuvenate the industrial landscape of the region and create substantial employment opportunities.
