

The Jogighopa Logistics Park is being developed by NHIDCL, with the state government contributing the land at the old Paper Mill complex.

Infra Status: nearing completion.

An SPV (Special Purpose Vehicle) will be established to manage its operations, involving all relevant stakeholders.

Additionally, the Inland Waterways Authority of India is preparing a river port on the Brahmaputra's North Bank, as part of the Multi-Modal Logistics Park (MMLP). The project will integrate three modes of transportation—railways, roadways, and waterways. A railway connection has been provided, utilizing the old railway siding, while the roadways have been significantly improved with a four-lane expressway from Pancharatna River to the main national highway. These developments will seamlessly connect the logistics park through all three transportation modes.
