

Environmental Humanities Proposed for Higher Education Curriculum

The *Association of Indian Universities (AIU)* has accepted in principle a proposal submitted by *North Lakhimpur University (NLU)* Vice-Chancellor *Mukul Chandra Bora* for the inclusion of *Environmental Humanities* in higher education curricula across India.

The proposed framework seeks to integrate environmental concerns with disciplines such as humanities, social sciences, culture, ethics and Indian Knowledge Systems through a multidisciplinary approach. AIU will circulate the proposal among its member universities for feedback before developing a broader policy framework. The initiative aims to strengthen environmental awareness and promote a holistic understanding of sustainability among students.

APSC Relevance: Higher education, environmental studies and multidisciplinary learning.
