Mount Victoria Babax bird was recently seen for the first time in 25 years in Phawngpui National Park.

Where is Phawngpui National Park?

Phawngpui National Park is located in Mizoram. It gets its name from highest peak of Mizroam called as Phawngpui Peak.

Bird Count India has ranked the Mount Victoria Babax as the eighth rarest bird species in India among the 20 on their list.

Another bird that is found only in the Lushai Hills in Mizoram and the Chin Hills of Myanmar is the Chin Hills Wren-Babbler (Spelaeornis oatesi).
