Nagaland is set to become the first state in Northeast India and the second in the country to establish a **TUMO Centre for Creative Technologies**. It will become part of a global network of 25 centres across 15 countries, with existing locations in cities such as Paris, Berlin, Lisbon, Los Angeles and Mumbai.

Founded in Yerevan, Armenia, in 2011 by Sam and Sylva Simonian, TUMO offers free after-school education to teenagers aged 12–18 in technology and design. Its learning model requires no entrance examinations, grades or tuition fees.

APSC Relevance: Digital Education, Skill Development.
