- Assam has emerged as one of the **top five states** in implementing the **PM Surya Ghar: Muft Bijli Yojana**, promoting rooftop solar installations in residential households.
- Around **17% of beneficiary households** in the state are now paying **zero electricity bills** after adopting rooftop solar systems.
- The scheme provides financial assistance for installing rooftop solar panels, enabling households to generate clean electricity and reduce dependence on conventional power sources.
- The initiative supports renewable energy adoption, lowers electricity costs, and contributes to India’s clean energy and sustainability goals.
