

Project UDAYAK of the Border Roads Organisation

Project UDAYAK of the Border Roads Organisation (BRO) celebrated its 37th Raising Day at Doomdooma in Assam.

Project UDAYAK is a specialised territorial wing of the BRO responsible for the construction, upgradation and maintenance of strategic road infrastructure in the remote and challenging terrains of Northeast India. It currently manages more than 1,457 km of roads, playing a crucial role in enhancing connectivity, border management, socio-economic development and national security in the region.

APSC Relevance: Border infrastructure, connectivity and strategic development in Northeast India.
