Majuli has welcomed ‘Pushpak’, described as the Northeast’s first double-decker tourist bus, ahead of the Raas festival scheduled for November 24–26, 2026. The 42-seater, air-conditioned bus features panoramic windows and has been designed for sightseeing.

An initiative of Auniati Satra, the project was conceptualised by Satradhikar Dr Pitambar Devagoswami after his visit to London in 2024. It aims to promote Majuli’s cultural heritage, scenic landscape and biodiversity through tourism.
