

With fears of a nuclear disaster at Ukraine's Zaporizhzhia power plant growing, the European Union has decided to pre-emptively supply 5.5 million anti-radiation pills distributed among residents in the vicinity.

What is a radiation emergency?

These are unplanned or accidental events that create radio-nuclear hazards to humans and the environment.

Such situations involve radiation exposure from a radioactive source and require prompt intervention to mitigate the threat. Dealing with such an emergency also involves the use of anti-radiation tablets.
