Panel- GK Pegu

Date- 30/11/2023

Session- Morning

My Major subject- Geology

1) What is your roll number?

2) Where are you coming from?

3) Tell me about your educational background?

4) What are you doing after Masters?

5) What challenges are facing the Magistrate in the DC office?

6) What is the definition of Biosphere, Biomass, Biotic?

7) What do you mean by a good personality?

8) Tell me about some petrochemical industries in Assam? (They need more than 3 examples)

9) Tell me about minerals available in Assam?

10) Where is Uranium found in the Northeast? (They want the exact location, not the state name)

11) What is the contribution of coal to GDP? (They want exact data)

12) What is India's crude oil production amount? (They want exact data, not in percentage like 90% import and 10% domestically produced)

13) Which paper do you read, and what were the headlines of yesterday's paper?

14) What was the last resort that made the successful rescue operation in Silkyara tunnel?

15) What is the length for which the rate hole mining method was used?

16) Who is the person behind the operation?

17) How are you using geology in your job?

(They told me that, they want exact data and figures, not approximate data like a layman)
