

1. Question

Consider the following statements about Karbi Anglong

- A. Karbi language would be recognized as the official language within the jurisdiction of the KAAC.
- B. Writer Lunse Timung was recently honoured with the Karbi Lammet Anong'eh award for 2025.
- C. Karbi Lammet Amei (KLA) is one of the biggest Karbi literary organizations

Which of the following statements is/ are correct?

- 1. Only A
- 2. Only B
- 3. Both A and C
- 4. All statements

2. Question

Meghalaya government appointed a one-man committee headed by former high court judge Brojendra Prasad Katakey to

A. to recommend measures for implementing the verdicts of the National Green Tribunal (NGT) and the Supreme Court on Coal mining

B. to recommend measures for implementing the verdicts of the National Green Tribunal (NGT) only

C. to recommend measures for implementing the verdicts of the Supreme Court only

D. to recommend measures for implementing the verdicts of the National Green Tribunal (NGT) and the Supreme Court on Rat hole mining only

3. Choose the correct statement from the following

A. The Bodoland Territorial Region contributes 30 per cent of Assam's Eri silk and over 20 per cent of India's production.

B. The Bodoland Territorial Region contributes 20 per cent of Assam's Eri silk and over 30 per cent of India's production.

C. The Bodoland Territorial Region contributes 40 per cent of Assam's Eri silk and over 20 per cent of India's production.

D. The Bodoland Territorial Region contributes 50 per cent of Assam's Eri silk and over 20 per cent of India's production.

4. Project Yuva Bhagidari has been conceptualized and designed to

A. create a mass movement on specific community development issues like Swachh Bharat.

B. carry out social service and community development engagement by NCC cadets as educators

C. enhancing communication skills and campaign strategies, and fostering community engagement.

D. All of the above

5.

Choose the correct statement from the following

A. The Lepetkata tea tourism project is touted as the first of its kind in India

B. The composite tea tourism project is aimed at reviving the already profitable tea estate with everything that tea tourism entails and thereby generate employment for local youth

C. Youths who will be trained can avail jobs only in the tourism and hospitality sector

D. Luxmi Tea Company has tea estates in Assam and Africa only

6. Consider the following statements regarding the Brahmaputra River system:

The Brahmaputra originates from the Angsi Glacier in Tibet, where it is known as the Yarlung Tsangpo, and follows an antecedent course while cutting through the Himalayas.

Unlike most Himalayan rivers, the Brahmaputra exhibits a braided channel pattern in Assam, primarily due to its high sediment load and seasonal variations in discharge.

The river is one of the few in the world classified as a "tidal bore" river, where strong tides from the Bay of Bengal significantly influence its flow and create waves that move upstream.

Majuli is shrinking due to severe erosion caused by the Brahmaputra's dynamic nature.

Which of the following is correct?

(A) Only 1, 2, and 3

(B) Only 2, 3, and 4

(C) Only 1, 2, and 4

(D) 1, 2, 3, and 4

7.

Consider the following statements regarding Elephant-Human Conflict in Assam:

The primary reason for rising elephant-human conflict in Assam is habitat fragmentation and deforestation, which forces elephants to venture into human settlements in search of food.

The introduction of artificial barriers like railway tracks and electric fences has successfully reduced elephant deaths and minimized conflicts in the region.

Assam has one of the highest elephant populations in India, with corridors such as the Kaziranga-Karbi Anglong landscape playing a crucial role in elephant movement.

The state government has adopted strategies like early warning systems, bio-fencing with chili and beehives, and community-based conservation efforts to mitigate conflicts.

Which of the following statements are correct?

- (A) Only 1, 2, and 3
- (B) Only 1, 3, and 4
- (C) Only 2, 3, and 4
- (D) 1, 2, 3, and 4

8.

Consider the following statements regarding wetlands in Assam:

Wetlands like Deepor Beel serve as Ramsar sites and play a crucial role in flood mitigation, groundwater recharge, and biodiversity conservation.

The primary threat to Assam's wetlands is climate change, with minimal impact from human activities like encroachment and pollution.

The Brahmaputra floodplain wetlands, locally known as "beels", provide livelihood opportunities through fishing, agriculture, and ecotourism.

The Assam government has introduced initiatives such as the State Wetland Authority and eco-restoration projects to conserve critical wetland ecosystems.

Which of the following statements are correct?

(A) Only 1, 3, and 4

(B) Only 2, 3, and 4

(C) Only 1, 2, and 3

(D) 1, 2, 3, and 4

9.

Consider the following statements regarding Eri Silk Production in Assam:

Assam is the largest producer of Eri silk in India, and it is traditionally associated with the tribal communities, especially the Bodos, Misings, and Karbis.

Unlike Mulberry and Tussar silk, Eri silk cultivation is non-violent, as the silkworms are allowed to complete their lifecycle before the fiber is extracted.

The Eri silkworm (*Samia ricini*) primarily feeds on castor leaves, making it adaptable to Assam's agro-climatic conditions.

The Assam government, under schemes like Muga, Eri and Silk Mission, has promoted Eri silk production by providing financial assistance, training, and marketing support to rural artisans.

Which of the following statements are correct?

(A) Only 1, 2, and 3

(B) Only 2, 3, and 4

(C) Only 1, 3, and 4

(D) 1, 2, 3, and 4

10.

Consider the following statements regarding the Hollong Tree (*Dipterocarpus retusus*) in Assam:

Hollong is the state tree of Assam and is primarily found in the tropical rainforests of the Dibang and Lohit valleys.

The tree plays a crucial ecological role by maintaining soil moisture, preventing erosion, and supporting biodiversity in Assam's forests.

Hollong is a fast-growing hardwood species widely used for timber, which has led to concerns about its overexploitation.

It is a dominant species in the forests of Dehing Patkai and Manas National Park, thriving in the high-humidity regions of Assam.

Which of the following statements are correct?

(A) Only 1, 2, and 3

(B) Only 2, 3, and 4

(C) Only 1, 2, and 4

(D) 1, 2, 3, and 4

11. Question

.

Which of the following factors poses the most significant challenge to the widespread adoption of satellite-based in-flight internet technology?

- a) Signal latency due to geostationary satellite positioning
- b) Interference from ground-based cellular towers
- c) Limited compatibility with next-generation aircraft systems
- d) High data compression reducing internet quality

12. Question

.

Consider the following statements:

Sree Narayana Guru promoted inter-caste marriages to combat caste-based discrimination.

He actively supported the Vaikom Satyagraha, which aimed to achieve temple entry rights for oppressed communities.

His teachings included the abolition of all forms of religious practices.

How many of the above statements is/are correct?

- a) Only one
- b) Only two
- c) All three
- d) None

13. Question

.

Which of the following challenges does Project VISTAAR aim to address most directly?

- a) The lack of mechanization in Indian agriculture

- b) Gaps in the dissemination of accurate and timely agricultural information
- c) Fragmentation of landholdings across India
- d) Post-harvest infrastructure bottlenecks

14. Question

.

Which of the following is the most distinguishing feature of the Open Data Kit (ODK) platform?

- a) Support for cloud-based data analysis
- b) Integration with blockchain for secure data storage
- c) Offline data collection capabilities in remote areas
- d) Real-time GPS tracking during data submission

15. Question

.

Consider the following statements about satellite-based in-flight internet:

It provides seamless coverage over oceans and remote areas.

Signals are transmitted directly from satellites to passenger devices.

It is more suitable for long-haul international flights than Air-to-Ground (ATG) in-flight internet systems.

How many of the above statements is/are incorrect?

- a) Only one
- b) Only two
- c) All three
- d) None

16. Question

.

Consider the following statements about injectable hydrogels:

They are designed to release drugs in response to specific environmental triggers.

They improve drug bioavailability at the tumor site.

They require continuous external stimuli for drug release.

How many of the above statements is/are correct?

- a) Only one
- b) Only two
- c) All three
- d) None

17. Question

.

Consider the following statements about Project VISTAAR:

It provides access to government schemes related to agriculture and rural development.

It focuses on integrating sustainable and climate-resilient farming practices.

It is exclusively implemented by the Ministry of Agriculture and Farmers' Welfare.

How many of the above statements is/are incorrect?

- a) Only one
- b) Only two
- c) All three

d) None

18. Question

.

The Ramesh Chand Committee was formed primarily to:

- a) Assess the impact of MSP (Minimum Support Price) on inflation
- b) Develop a roadmap for doubling farmers' income
- c) Transition from the Wholesale Price Index (WPI) to the Producer Price Index (PPI)
- d) Evaluate India's agricultural export policies

19. Question

.

Which of the following is not a feature of the Producer Price Index (PPI)?

- a) Tracks price changes before goods reach consumers
- b) Includes services sector
- c) Adheres to the System of National Accounts (SNA)
- d) Measures changes in consumer purchasing power

20. Question

.

The Torrijos-Carter Treaties primarily aimed to:

- a) Establish joint U.S.-Panama control over the Panama Canal
- b) End all U.S. military presence in Panama
- c) Establish the Panama Canal as a tax-free trade zone
- d) Transfer full control of the Panama Canal to Panama by a specified date

21. Question

.

Consider the following statements about Pradhan Mantri Fasal Bima Yojana (PMFBY):

It provides coverage for yield losses caused by natural calamities.

Farmers must pay 10% of the premium for horticultural crops.

Satellite technology is used for yield estimation.

Which of the above statements are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2, and 3

22. Question

.

Consider the following statements about incineration:

It involves controlled combustion of waste.

It generates energy in the form of heat or electricity.

It is effective in reducing wet waste.

Which of the above statements are correct?

- a) 1 and 2 only
- b) 2 and 3 only

c) 1 and 3 only

d) 1, 2, and 3

23. Question

.

Which of the following accurately distinguishes 6th generation fighter jets from their predecessors?

a) Introduction of stealth design

b) Incorporation of multi-role capabilities

c) Use of afterburners for supersonic speeds

d) Development of hypersonic capabilities and AI integration

24. Question

.

Which of the following is a key goal of the “Year of Reforms” initiative in India?

a) Achieving hypersonic capability in defense

b) Modernizing India's agriculture sector

c) Introducing autonomous judiciary reforms

d) Streamlining defense procurement processes

25. Question

.

Consider the following statements about the India Meteorological Department (IMD):

It is responsible for short-term and long-term weather forecasts.

It operates under the Ministry of Environment, Forest, and Climate Change.

It conducts research on monsoon dynamics and climate change.

Which of the above statements are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1 and 3 only
- d) 1, 2, and 3

26. Question

.

Consider the following statements about IMD's regional centers:

They are responsible for localized weather forecasts.

They operate independently from the central IMD headquarters.

They provide sector-specific weather services for agriculture and aviation.

Which of the above statements are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 2 and 3 only
- d) 1, 2, and 3

27. Question

.

What type of waste is least suitable for incineration?

- a) High-calorific-value plastics
- b) Wet organic waste
- c) Hazardous biomedical waste

d) Paper and cardboard

28. Question

.

Consider the following statements about incineration processes:

It reduces the volume of waste by approximately 90%.

It completely eliminates the need for landfills.

It can recover energy in the form of electricity or heat.

Which of the above statements are correct?

a) 1 and 2 only

b) 1 and 3 only

c) 2 and 3 only

d) 1, 2, and 3

29. Question

.

Consider the following statements about nitrate contamination mitigation strategies:

Crop rotation and cover cropping reduce nitrate leaching.

Reverse osmosis is an effective method for nitrate removal from drinking water.

Constructed wetlands increase nitrate levels in water bodies.

Which of the above statements are correct?

a) 1 and 2 only

b) 2 and 3 only

c) 1 and 3 only

d) 1, 2, and 3

30. Question

.

Consider the following statements about the Saraswati River:

It is mentioned in both the Rigveda and Mahabharata.

It originates near Kailash Mansarovar in the Himalayas.

It flows through present-day Gujarat, Haryana, and Rajasthan.

Which of the above statements are correct?

a) 1 and 2 only

b) 2 and 3 only

c) 1 and 3 only

d) 1, 2, and 3

31. Question

.

Consider the following statements regarding a Private Member's Bill:

It can only be introduced by MPs from the opposition parties.

A Private Member's Bill, if rejected, does not affect the government's stability.

Discussion of such Bills is limited to specific days in Parliament.

How many of the above statements is/are correct?

a) Only one

- b) Only two
- c) All three
- d) None

32. Question

.

Consider the following statements about Exercise Surya Kiran:

It is an annual bilateral exercise between India and Nepal.

The exercise primarily focuses on maritime security and counter-piracy operations.

It includes training in jungle warfare and disaster response.

How many of the above statements is/are correct?

- a) Only one
- b) Only two
- c) All three
- d) None

33. Question

.

What is the primary reason for a belly landing of Aircraft?

- a) Pilot error during approach.
- b) Deliberate decision during routine landings.
- c) Landing gear malfunction or emergency conditions.
- d) Structural flaws in the fuselage design.

34. Question

.

What is the primary focus of Google's Willow quantum processor?

- a) Enhancing artificial intelligence applications.
- b) Increasing data storage capacity.
- c) Improving quantum error correction and scalability.
- d) Developing room-temperature quantum computing.

35. Question

.

Which of the following is true regarding the geographic location of Trinidad and Tobago?

- a) It is located in the Pacific Ocean near the coast of South America.
- b) It is a landlocked country in South America.
- c) It lies between the Indian Ocean and the Arabian Sea.
- d) It is an island nation in the Caribbean, located in the Atlantic Ocean.

36. Question

.

Which of the following is the primary goal of NASA's Kessler Syndrome Mitigation efforts?

- a) To develop reusable launch vehicles for space missions
- b) To regulate international cooperation on space missions
- c) To prevent cascading collisions in orbit by limiting debris generation
- d) To remove defunct satellites and large debris from orbit

37. Question

.

Consider the following statements regarding the Air Independent Propulsion System (AIP):

AIP technology is exclusively used in nuclear submarines.

2. AIP systems carry liquid oxygen to enable underwater operations.

3. AIP reduces the detection vulnerability of submarines.

4. The AIP system is less compact compared to conventional diesel-electric systems.

How many of the above statements is/are correct?

- a) Only one
- b) Only two
- c) Only three
- d) All four

38. Question

.

Consider the following statements about the procedure for a Private Member's Bill:

It requires a one-month notice before introduction in the House.

The Bill can be referred to a parliamentary committee for detailed examination.

It must be approved by the President before introduction in Parliament.

Which of the above statements are correct?

- a) 1 and 2
- b) 2 and 3
- c) 1 and 3
- d) 1, 2, and 3

39. Question

.

Consider the following statements regarding superconducting qubits in the Willow processor:

They operate at near absolute zero temperatures.

They enhance coherence time, enabling longer computations.

They use photonic states for quantum information processing.

Which of the above statements are correct?

- a) 1 and 2
- b) 2 and 3
- c) 1 and 3
- d) 1, 2, and 3

40. Question

.

Which of the following is critical for preventing an aircraft from flipping during a belly landing?

- a) Rapid descent with full throttle.
- b) Complete shutdown of aerodynamic surfaces.
- c) Level alignment with wings parallel to the ground.
- d) Full deployment of the landing gear.

41. Question

.

Consider the following statements regarding Norovirus infections:

Norovirus primarily infects individuals through vector-borne transmission from animals.

High-risk locations for Norovirus outbreaks include isolated rural areas with sparse populations.

Norovirus infections occur exclusively in cold climates.

How many of the above statements is/are correct?

- a) Only one
- b) Only two
- c) All three
- d) None

42. Question

.

What makes the Fishing Cat a significant species for wetland ecosystems?

- a) It acts as an indicator species for wetland health.
- b) It is the apex predator in all wetland ecosystems.
- c) It exclusively feeds on aquatic plants.
- d) It contributes to pollination in mangrove ecosystems.

43. Question

.

What was the primary focus of the Carter Doctrine?

- a) Promoting nuclear disarmament in the Middle East

- b) Advocating for peaceful resolution of Cold War conflicts
- c) Establishing diplomatic ties with the Soviet Union post-Afghanistan invasion
- d) Asserting U.S. willingness to use military force to defend its interests in the Persian Gulf

44. Question

.

Consider the following statements about the H-1B visa:

The H-1B visa is applicable only to workers in the IT sector.

Employers must prove a lack of available qualified U.S. workers to hire H-1B visa holders.

H-1B visa holders can work for multiple employers without restrictions.

How many of the above statements is/are correct?

- a) Only one
- b) Only two
- c) All three
- d) None

45. Question

.

Consider the following statements regarding Vembanad Lake's significance:

It is the largest backwater ecosystem in India.

The Nehru Trophy Boat Race is held annually on its waters.

It is separated from the Arabian Sea by the Western Ghats.

How many of the above statements is/are correct?

- a) Only one
- b) Only two
- c) All three
- d) None

46. Question

.

What is the primary advantage of an Air Independent Propulsion (AIP) system for submarines?

- a) Allows submarines to operate at higher speeds underwater
- b) Reduces the need for conventional fuel in submarines
- c) Improves surface visibility of submarines for better navigation
- d) Enables submarines to operate underwater without surfacing for extended durations

47. Question

.

What is the primary objective of the World Audio Visual Entertainment Summit (WAVES)?

- a) To address global climate change through media
- b) To regulate intellectual property laws in the entertainment industry
- c) To promote traditional cultural heritage exclusively
- d) To position India as a global leader in the media and entertainment industry

48. Question

.

Consider the following statements regarding the Parker Solar Probe:

The Parker Solar Probe is part of NASA's Living with a Star program.

The probe was designed to explore the magnetic fields of Earth's atmosphere.

The data gathered is crucial for advancing space weather forecasting.

How many of the above statements is/are correct?

- a) Only one
- b) Only two
- c) All three
- d) None

49. Question

Consider the following statements regarding Scorpene class submarines:

Statement-I: Scorpene class submarines are exclusively nuclear-powered vessels.

Statement-II: They are designed to accommodate Air Independent Propulsion (AIP) systems as upgrades.

Which one of the following is correct in respect of the above statements?

- a) Both Statement-I and Statement-II are correct and Statement-II is the correct explanation for Statement-I
- b) Both Statement-I and Statement-II are correct and Statement-II is not the correct explanation for Statement-I
- c) Statement-I is correct but Statement-II is incorrect
- d) Statement-I is incorrect but Statement-II is correct

50. Question

Where is the Coringa Wildlife Sanctuary located, and what is it known for?

- a) Tamil Nadu; famous for grassland ecosystems
- b) Andhra Pradesh; supports a thriving mangrove ecosystem
- c) Kerala; home to extensive freshwater lakes
- d) Odisha; a critical habitat for Olive Ridley turtles

51. Question

.

What is the primary objective of the SpaDeX Mission?

- a) Deployment of communication satellites
- b) Establishment of a geostationary orbit for surveillance
- c) Demonstration of rendezvous, docking, and undocking of two spacecraft
- d) Testing solar power generation in space

52. Question

.

Consider the following statements about UNESCO's National Inventory of Intangible Cultural Heritage:

It aims to safeguard cultural expressions endangered by globalization.

It only includes practices that are actively supported by governments.

It requires alignment with principles of sustainable development.

Which of the above statements are correct?

- a) 1 and 2
- b) 1, 2, and 3

c) 2 and 3

d) 1 and 3

53. Question

.

Consider the following statements about the Upper Siang Multipurpose Project:

It aims to generate hydropower and mitigate floods.

It is located near the Dibang River in Assam.

It involves collaboration between National Hydroelectric Power Corporation (NHPC) and North Eastern Electric Power Corporation Limited (NEEPCO).

Its reservoir is designed to maintain river flow during lean seasons.

Which of the above statements are correct?

a) 1 and 3

b) 2, 3, and 4

c) 1, 3, and 4

d) 1, 2, and 4

54. Question

.

The recently discovered Sanskrit inscription in Gilgit, Pakistan-Occupied Kashmir, is associated with which script?

a) Sharada script

b) Grantha script

c) Kharosthi script

d) Brahmi script

55. Question

.

Consider the following statements regarding the features of About India-Australia Economic Cooperation and Trade Agreement.

The agreement excludes trade in new areas such as turbojets and gold-studded diamonds.

The agreement provides preferential market access for key goods, including textiles, chemicals, and agriculture products.

Which of the above statements is/are correct?

- a) 1 only
- b) 2 only
- c) Both 1 and 2
- d) Neither 1 nor 2

56. Question

.

Consider the following statements regarding Metabolic Dysfunction-Associated Steatotic Liver Disease (MASLD):

It is caused exclusively by high cholesterol levels.

Advanced MASLD may progress to hepatocellular carcinoma.

MASLD has no connection with cardiovascular diseases.

How many of the above statements is/are correct?

- a) Only one
- b) Only two
- c) All three

d) None

57. Question

.

Which strait connects the Crimea Peninsula to mainland Russia?

- a) Bosphorus Strait
- b) Gibraltar Strait
- c) Dardanelles Strait
- d) Kerch Strait

58. Question

.

Consider the following statements:

BBIN energy grid facilitates trade connectivity between India, Myanmar, and Bangladesh.

India supports e-governance projects in neighboring countries to boost trade facilitation.

The Kaladan Multimodal Project includes both waterways and roadways.

How many of the above statements is/are correct?

- a) Only one
- b) Only two
- c) All three
- d) None

59. Question

.

Consider the following statements regarding Renewable Energy Certificates (REC).

Statement-I: India's Renewable Energy Certificates (REC) mechanism allows industries to meet renewable energy compliance without directly sourcing renewable power.

Statement-II: REC mechanisms were introduced to promote renewable energy deployment and ensure market-driven compliance flexibility.

Which one of the following is correct in respect of the above statements?

- a) Both Statement-I and Statement-II are correct and Statement-II is the correct explanation for Statement-I
- b) Both Statement-I and Statement-II are correct and Statement-II is not the correct explanation for Statement-I
- c) Statement-I is correct but Statement-II is incorrect
- d) Statement-I is incorrect but Statement-II is correct

60. Question

.

Consider the following statements regarding India's association with UNESCO.

India is a current member of UNESCO's Intangible Cultural Heritage (ICH) Committee.

The Ministry of External Affairs is responsible for preparing nomination dossiers for the UNESCO Representative List.

The Archaeological Survey of India (ASI) is the nodal office for UNESCO's Intangible Cultural Heritage matters.

How many of the above statements is/are correct?

- a) Only one
- b) Only two

c) All three

d) None

61. Question

.

The primary aim of the Dr. Pushpak Bhattacharyya Committee is:

a) Promotion of AI in agriculture

b) Establishment of AI-driven startups

c) Automation of government services

d) Framework for responsible AI adoption in

62. Question

.

Consider the following statements regarding PM CARES Fund:

The PM CARES Fund includes both ex-officio and nominated trustees.

It aims to address public health emergencies and natural disaster

It is administered under the Ministry of Finance.

How many of the above statements is/are correct?

a) Only one

b) Only two

c) All three

d) None

63. Question

.

Consider the following statements regarding Operation Greens

1. Operation Greens initially focused on Tomato, Onion, and Potato (TOP).
2. It was launched under the Atma Nirbhar Bharat initiative.
3. The scheme aims to create robust farm-to-market linkages to minimize post-harvest losses.

Which of the above statements is/are correct?

- a) 1 and 3 only
- b) 1 only
- c) 2 and 3 only
- d) 1, 2 and 3

64. Question

Consider the following statements regarding Sea otters.

Statement-I: Sea otters are keystone species in marine ecosystems.

Statement-II: They help in preventing the destruction of kelp forests by preying on sea urchins.

Which one of the following is correct in respect of the above statements?

- a) Both Statement-I and Statement-II are correct and Statement-II is the correct explanation for Statement-I
- b) Both Statement-I and Statement-II are correct and Statement-II is not the correct explanation for Statement-I
- c) Statement-I is correct but Statement-II is incorrect
- d) Statement-I is incorrect but Statement-II is correct

65. Question

.

Consider the following statements regarding African Union Stabilization and Support Mission in Somalia (AUSSOM):

AUSSOM replaces the African Union's anti-terrorism operation in Somalia.

It functions without international financial support due to self-sustaining mechanisms.

AUSSOM focuses on both security stabilization and sustainable development.

Which of the above statements are correct?

- a) 1 and 2 only
- b) 2 and 3 only
- c) 1, 2, and 3
- d) 1 and 3 only

66. Question

.

Which of the following rivers is a major river in Somalia?

- a) Nile
- b) Jubba
- c) Limpopo
- d) Zambezi

67. Question

.

Consider the following statements regarding the PM CARES Fund:

It qualifies as a Corporate Social Responsibility (CSR) expenditure under the Companies Act, 2013.

It is exempt from the Foreign Contribution Regulation Act (FCRA).

It is managed with partial budgetary support from the government.

How many of the above statements is/are correct?

- a) Only one
- b) Only two
- c) All three
- d) None

68. Question

.

Consider the following statements.

Greenland is the world's second-largest island.

Three-quarters of Greenland's surface is permanently covered by an ice sheet.

Greenland holds significant mineral and energy reserves due to melting ice.

Which of the above statements is/are correct?

- a) 1 and 2 only
- b) 1 and 3 only
- c) 1, 2 and 3
- d) 2 and 3 only

69. Question

.

Consider the following statements regarding South Asian Economic Union (SAEU).

Statement-I: The South Asian Economic Union (SAEU) is a vision of the South Asian Association for Regional Cooperation (SAARC) to integrate the economies of its member states.

Statement-II: The primary objective of SAEU is to establish a common currency for SAARC countries.

Which one of the following is correct in respect of the above statements?

- a) Both Statement-I and Statement-II are correct and Statement-II is the correct explanation for Statement-I
- b) Both Statement-I and Statement-II are correct and Statement-II is not the correct explanation for Statement-I
- c) Statement-I is correct but Statement-II is incorrect
- d) Statement-I is incorrect but Statement-II is correct

70. Question

.

Consider the following statements regarding Operation Greens.

1. Operation Greens provides subsidies up to 50% on transportation and storage for eligible crops to prevent distress sales.
2. The scheme's long-term interventions include building farm-gate infrastructure and food processing units.
3. Short-term measures are available exclusively for cereals and pulses.

Which of the above statements is/are correct?

- a) 1 only
- b) 1 and 3 only
- c) 1 and 2 only
- d) 1, 2 and 3

71. Question

.

What was unique about the Belagavi Congress Session of 1924?

- a) It was the first Congress session to focus solely on political goals.
- b) It was chaired by Subhas Chandra Bose.
- c) It was the only session presided over by Mahatma Gandhi.
- d) It introduced the resolution for Purna Swaraj.

72. Question

.

Consider the following statements regarding Matsya Seva Kendras.

Statement-I: Matsya Seva Kendras were established to provide extension services to fish farmers.

Statement-II: They are equipped with laboratories for water, soil, and microbial analysis.

Which one of the following is correct in respect of the above statements?

- a) Both Statement-I and Statement-II are correct and Statement-II is the correct explanation for Statement-I
- b) Both Statement-I and Statement-II are correct and Statement-II is not the correct explanation for Statement-I
- c) Statement-I is correct but Statement-II is incorrect
- d) Statement-I is incorrect but Statement-II is correct

73. Question

.

What is the primary objective of contractionary monetary policy?

- a) To boost aggregate demand and economic growth
- b) To control inflation and reduce economic overheating

Which of the above statements are correct?

- a) 1 and 2 only
- b) 1 and 3 only

c) 2 and 3 only

d) 1, 2, and 3

90. Question

.

Which of the following factors directly influence Real Effective Exchange Rate (REER) calculations?

Trade weights of trading partners

Nominal bilateral exchange rates

Inflation differentials between countries

Capital flows

Select the correct answer using the code below:

a) 1, 2, 3, and 4

b) 1, 3, and 4 only

c) 2, 3, and 4 only

d) 1, 2, and 3 only

91. Question

.

What is one significant limitation of current quantum computers?

a) Inability to process parallel tasks

b) Limited reliance on environmental conditions

c) Complete absence of commercial applications

d) High error rates due to decoherence

92. Question

.

Consider the following statements about the Lion-Tailed Macaque:

It is protected under Appendix II of CITES.

The Lion-Tailed Macaque is an arboreal species found in the rainforests of the Western Ghats.

Its population is thriving due to effective conservation measures.

How many of the above statements is/are correct?

- a) Only one
- b) Only two
- c) All three
- d) None

93. Question

.

Which wildlife area will be significantly affected by the construction of the Daudhan Dam under the Ken-Betwa Link Project?

- a) Nauradehi Wildlife Sanctuary
- b) Panna Tiger Reserve
- c) Satpura National Park
- d) Chambal Wildlife Sanctuary

94. Question

.

Consider the following statements about mammoths, recently in news:

Mammoths were adapted to cold climates due to their long limbs and large ears.

The woolly mammoth is genetically closer to Asian elephants than African elephants.

Mammoths are classified as Extinct under the IUCN Red List.

Which of the above statements are correct?

- a) 1 and 2
- b) 2 and 3
- c) 1 and 3
- d) 1, 2, and 3

95. Question

.

Consider the following statements about the significance of Kamarajar Port:

It is incorporated under the Sagarmala Programme.

It contributes to industrialization along the Coromandel Coast.

It primarily handles passenger ferries between Chennai and Kolkata.

Which of the above statements are correct?

- a) 1 and 3
- b) 2 and 3
- c) 1 and 2
- d) None of the above

96. Question

.

Kilauea Volcano, one of the world's most active volcanoes, began erupting again in December 2024. Kilauea is part of which geological formation?

- a) Mid-Atlantic Ridge
- b) Andes volcanic belt
- c) Hawaiian-Emperor seamount chain
- d) East African Rift

97. Question

.

What was the primary purpose of the Mansabdari system introduced by Akbar?

- a) To centralize revenue collection from agricultural lands
